

Product Pricing Matrix

Product	Package / Tier	Description	List Price (Target)	Floor Price (Max Discount)
AutoFill (AI Document-to-Form Automation Engine)	Tier 1: Core Engine (Product Only)	Out-of-the-box engine with standard templates	\$10,000	\$5,000
	Tier 2: Implementation (Product + Setup for 1 Use Case)	Template adaptation, pipeline configuration (e.g., data flow mapping, adjusting output formats), and model selection tailored to client document types	\$15,000	\$10,000
	Tier 3: Enterprise Integration (Product + Setup + Customization + Integration for 1 Use Case)	Full integration with ERP/CRM/Accounting systems. Development of custom processing pipelines (e.g., automated document type pre-classification) and bespoke model selection	\$20,000	\$15,000
AutoConfirm (AI Auto-Call confirmation engine)	Tier 1: Core Engine (Product Only)	Pre-built AI agent with standard confirmation scenarios and workflows	\$12,000	\$6,000
	Tier 2: Implementation (Product + Setup for 1 Use Case)	Scenario adaptation, voice model tuning, and dialog logic configuration aligned with specific client processes	\$17,000	\$12,000
	Tier 3: Enterprise Integration (Product + Setup + Customization + Integration for 1 Use Case)	Full integration with CRM/PMS/Booking systems, completely custom dialog logic, and bespoke conversation scenarios	\$22,000	\$17,000
AutoBooking (Omnichannel AI booking engine)	Tier 1: Core Engine (Product Only)	Out-of-the-box AI auto-booking engine with standard multi-channel scenarios (Voice/Chat/UI web component)	\$15,000	\$9,000
	Tier 2: Implementation (Product + Setup for 1 Use Case)	Booking scenario adaptation tailored to specific client processes (e.g., Dock Scheduling or Bus renting). Includes tuning of the Request Parser for client-specific parameters, dialog logic configuration, and basic availability setup. Includes 1 primary channel (e.g., Voice or Web Chat)	\$20,000	\$15,000
	Tier 3: Enterprise Integration (Product + Setup + Customization + Integration for 1 Use Case)	Full integration with client's TMS/WMS/ERP or custom Booking systems. Development of bespoke Availability Engine adapters for real-time slot synchronization, completely custom conversational logic, seamless booking execution, and tailored confirmation sender pipelines.	\$25,000	\$20,000

Additional communication channels: +\$2,000 per channel e.g. WhatsApp, Email

**Custom model fine-tuning for specific use cases is billed at a T&M blended rate*
